*React, Vite, TypeScript, Tailwind, Go, Postgres, Redis, Docker, DigitalOcean, Cypress*

*February 2025 - Present*

- A dockerized, full-stack browser game deployed using DigitalOcean that features a responsive UI, fast-paced gameplay, leaderboard/stats tracking, and a CI/CD pipeline with linters, formatters, E2E tests, and unit tests.

### RPI Principles of Software Course Website Revamp

*HTML, CSS, Bootstrap, JavaScript*

*June 2025 - Present*

- Fully redesigned the site, adding responsive scaling and a dark mode toggle to improve UX for 200+ students each semester.
- Streamlined maintainer workflow by replacing Bootstrap with custom CSS to simplify the codebase, establishing a Git-based workflow, creating a reusable template instructors can use across courses, and adding components to reduce code duplication.

### Portfolio Website (Personal Project)

[justinmanion.com](https://justinmanion.com) |  portfolio-site

*React, Vite, TypeScript, CSS*

*July 2025 - Present*

- Static website featuring a dark mode toggle, responsive user interface, and custom framework for reusable layouts and styles.
